

Corrections to the 2014 ESC-ESS JAM program

Symposium I on Monday morning (Biological Control in a Changing World) begins at 08:00 and not 08:30 as is misprinted on p. 31).

Additions

President's Prize Session: Poster

Poster 22 has been moved into the President's Prize Poster Session.

Joyce P Leung, Alida F Janmaat, Jenny S Cory, J Todd Kabaluk

Simon Fraser University; jpl15@sfu.ca

*Assessing the potential of pheromone granules for the augmentation of *Agriotes obscurus* control with *Metarhizium brunneum**

Contributed Paper Session: *Pest Management*, Tuesday, 11:45

Tom Lowery, Naomi DeLury, Keith Deglow; Agriculture & Agri-Food Canada Summerland;

tom.lowery@agr.gc.ca

Contribution of plant species diversity to vineyard pest management

Cancellations

President's Prize Session: *Biodiversity and conservation*, Monday, 08:30 (Session will begin at 08:45)

Andres Herrera: *Higher-level molecular phylogeny of Ophioniformes (Hymenoptera: Ichneumonidae)*

Poster Session: Monday, 17:00

Poster 3: **Suzanne Blatt**, Joanne Driscoll, Kim Hiltz; Agriculture and Agri-Food Canada;

suzanne.blatt@agr.gc.ca

Carrot weevil and carrot rust fly in Nova Scotia and Prince Edward Island

Contributed papers: *Biocontrol, bees, pollination*, Wednesday 10:45

Nigel E Raine*, Richard J Gill, Dara A Stanley

University of Guelph; *nraine@uoguelph.ca

The impacts of pesticides on bumblebees: from individual behaviour to colony function

***** All of the following presentations in this session will be advanced to fill the gap**

Contributed papers: *Forestry, semiochemicals, insect biology*, Wednesday 09:45

Nathan Derstine*, Regine Gries, Huimin Zhai, Gerhard Gries

Simon Fraser University; *nderstin@sfu.ca

W.A.S.P.S. - Wondering about sex pheromones (Hymenoptera: Vespidae)

***** All of the following presentations in this session will be advanced to fill the gap**

Presenter changes

Poster 15: *Assessment of the diversity of *Aphthona* flea beetles for biological control of leafy spurge on the prairies*. The presenter will be **Kevin Floate**.

Poster 31: *Ontogenetic and sex-specific trophic plasticity of *Orconectes virilis* in aquatic invertebrate communities*. The presenter will be **Iain Phillips**.
